

Volare Lite

Volare LS

Volare LS-xt

Volare with Chairback

Volare Spinal System

Four Design Options:

	Volare Lite	Volare LS	Volare LS-xt	Volare with Chairback
Color	Black	Black	Black	Black
Size: 8 inch	S,M,L,XL,2XL	S,M,L,XL,2XL,3XL	S,M,L,XL,2XL,3XL	S,M,L,XL,2XL,3XL
10 inch	n/a	S,M,L,XL,2XL,3XL	S,M,L,XL,2XL,3XL	S,M,L,XL,2XL,3XL,4XL
Style	No Panel	Rigid anterior/posterior panel	Rigid anterior/posterior panel	Rigid anterior panel and chairback frame
Purpose	Moderate sagittal control	Sagittal control	Sagittal control	Sagittal-coronal control
Clinical Guidelines	Lower back pain, spinal instability, early intervention /prevention	Multiple level decompression, laminectomy, Posterior lateral fusion	Thoracolumbar injury, revision surgery, multiple level fusion	Spondylolysis, Spondylolisthesis, Mechanical Back Pain
PDAC Applied	L0626	L0627	L0631	L0637

Measurements: Small 25-30", Medium 30-35", Large 35-40", X Large 40-45", 2X Large 45-50", 3XLarge 50-55", 4XL 56-68"

The above clinical indications may serve as a basic guide. The utilization of all Bledsoe spinal orthoses should not be limited to the above criteria but rather left to the judgment of qualified medical professionals.

Bledsoe™

Volare™ Spinal System

Support - Stability - Pain Relief

- Creates intra-abdominal compression, reducing the load on intervertebral discs
 - Controls back pain
- Promotes proper body mechanics and posture
- Weak or injured structures are stabilized

The Secret of the System

The core of the System is the adaptable Volare™ brace.

Pulleys Add the Power

The Volare Spinal System effortlessly adjusts intra-abdominal compression using the 5:1 mechanical advantage of low friction pulleys. After all, Volare means 'glide'.

More Customized Fit

Only the Volare System adjusts for girth AND shape, using unique independent guides.

Sit. Walk. Lift.

The Zip Line facilitates instant changes to compression using minimal body motion, strength or dexterity. Just pull and attach.

Breathable Side Panels

Lightweight mesh side panels make the braces breathable, flexible and comfortable for better compliance.

Volare Key Features

- Anterior and posterior panels unload spinal pressure for pain relief.
 - Panels are contoured to gently fit the shape of the body.
- Zip Line on component braces provides 5:1 leverage for easy one-hand adjustment.
 - Single front closure is easy to apply.
- Thinner than a belt, Volare braces disappear under clothing.
- Breathable side panels provide all-day comfort.

The brace changes circumference, AND allows 'coning' for wide variations in hip-to-waist measurements.

Volare™ with Chairback >

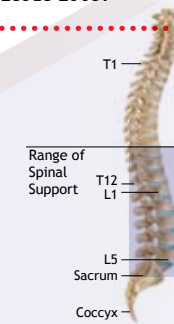

PDAC Applied | Lcode L0637

Posterior chairback panel extends from sacrococcygeal junction to T-9 vertebra. Anterior, posterior and lateral control.

Indications:

Mechanical Back Pain
Posterior Lateral Fusion
Lumbar Spinal Laminectomy
Multiple level decompression
Spondylolysis
Spondylolisthesis
Spinal Stenosis

Size	8 Inch	10 Inch
S	AB027003	AB028003
M	AB027005	AB028005
L	AB027007	AB028007
XL	AB027009	AB028009
2XL	AB027011	AB028011
3XL	AB027013	AB028013
4XL	Not Available	AB028015

Volare™ LS-xt Orthotic >

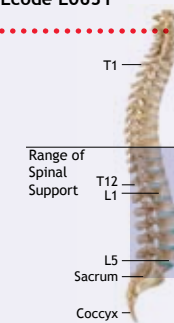

PDAC Applied | Lcode L0631

Posterior panel extends from sacrococcygeal joint to T-9 vertebra. Anterior and posterior control.

Indications:

Thoracolumbar injury
Revision surgery
Multi-level fusion
Mechanical Back Pain
Disc Herniation
Disc Degeneration
Lumbar Discectomy

Size	8 Inch	10 Inch
S	AB022003	AB023003

4XL	Not Available	AB023015

Volare™ LS Orthotic >

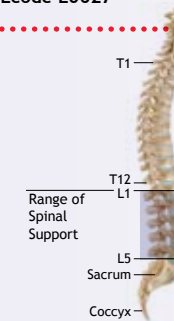

PDAC Applied | Lcode L0627

Posterior panel extends from L-1 to below S-1 vertebra. Anterior and posterior control.

Indications:

Multiple level decompression
Lumbar Laminectomy
Posterior Lateral Fusion
Mechanical Back Pain

Size	8 Inch	10 Inch
S	AB017003	AB018003
M	AB017005	AB018005
L	AB017007	AB018007

2XL	AB017011	AB018011
3XL	AB017013	AB018013

Volare™ Lite >

PDAC Applied | Lcode L0626

The Volare Lite is for day-to-day use relieving back pain from activity, sports or simple desk fatigue.

- Unmatched abdominal compression with up to 6 inches of closure.
- Easily adjusts, assisted by 3:1 leverage of patented pulley system.

Indications:

Lower back pain
Spinal instability
Industrial back support
Back sprains & strains
Mechanical Back Pain

Size	8 Inch
S	AB012003
M	AB012005
L	AB012007
XL	AB012009
2XL	AB012011
